Select Health Medicare 2026 Essential Formulary List of Covered Drugs

**PLEASE READ: THIS DOCUMENT CONTAINS INFORMATION ABOUT THE
DRUGS WE COVER IN THIS PLAN**

Select Health is an HMO, SNP plan sponsor with a Medicare contract. Enrollment in Select Health Medicare depends on contract renewal.

Select Health Medicare + Kroger pharmacy network includes limited lower-cost, preferred pharmacies. The lower costs advertised in our plan materials for these pharmacies may not be available at the pharmacy you use. For up-to-date information about our network pharmacies, including whether there are any lower-cost preferred pharmacies in your area, please call **800-442-9900 (TTY 711)** or consult the online pharmacy directory at **selecthealth.org/medicare/pharmacy**.

Note to existing members: This formulary has changed since last year. Please review this document to make sure that it still contains the drugs you take.

When this Drug List (formulary) refers to “we,” “us”, or “our,” it means Select Health. When it refers to “plan” or “our plan,” it means Select Health Medicare.

This document includes the Drug List (formulary) for our plan **which is current as of May 1, 2026** . For an updated Drug List (formulary), please contact us. Our contact information, along with the date we last updated the Drug List (formulary), appears on the front and back cover pages.

You must generally use network pharmacies to use your prescription drug benefit. Benefits, formulary, pharmacy network, and/or copayments/coinsurance may change on January 1, 2026, and from time to time during the year.

What is the Select Health Medicare Formulary?

In this document, we use the terms Drug List and formulary to mean the same thing. A formulary is a list of covered drugs selected by Select Health in consultation with a team of health care providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program. Select Health will generally cover the drugs listed in our formulary as long as the drug is medically necessary, the prescription is filled at a Select Health Medicare network pharmacy, and other plan rules are followed. For more information on how to fill your prescriptions, please review your *Evidence of Coverage*.

Can the Formulary change?

Most changes in drug coverage happen on January 1, but we may add or remove drugs on the formulary during the year, move them to different cost-sharing tiers, or add new restrictions. We must follow the Medicare rules in making these changes. Updates to the formulary are posted monthly to our website here: selecthealth.org/medicare/pharmacy.

Changes that can affect you this year: In the below cases, you will be affected by coverage changes during the year:

- **Immediate substitutions of certain new versions of brand name drugs and original biological products.** We may immediately remove a drug from our formulary if we are replacing it with a certain new version of that drug that will appear on the same or lower cost sharing tier and with the same or fewer restrictions. When we add a new version of a drug to our formulary, we may decide to keep the brand name drug or original biological product on our formulary, but immediately move it to a different cost-sharing tier or add new restrictions.

We can make these immediate changes only if we are adding a new generic version of a brand name drug, or adding certain new biosimilar versions of an original biological product, that was already on the formulary (for example, adding an interchangeable biosimilar that can be substituted for an original biological product by a pharmacy without a new prescription).

If you are currently taking the brand name drug or original biological product, we may not tell you in advance before we make an immediate change, but we will later provide you with information about the specific change(s) we have made.

If we make such a change, you or your prescriber can ask us to make an exception and continue to cover for you the drug that is being changed. For more information, see the section below titled “*How do I request an exception to the Select Health Medicare formulary?*”

Some of these drug types may be new to you. For more information, see the section below titled “What are original biological products and how are they related to biosimilars?”

- **Drugs removed from the market.** If a drug is withdrawn from sale by the manufacturer or the Food and Drug Administration (FDA) determines to be withdrawn for safety or effectiveness reasons, we may immediately remove the drug from our formulary and later provide notice to members who take the drug.
- **Other changes.** We may make other changes that affect members currently taking a drug. For instance, we may add a new generic drug to replace a brand-name drug currently on the formulary, or add a new biosimilar to replace an original biological product currently on the formulary, or add new restrictions or move a drug we are keeping on the formulary to a higher cost-sharing tier or both after we add a corresponding drug. We may remove a brand name drug from the formulary when adding a generic equivalent or remove an original biological product when adding a biosimilar. We may also apply new restrictions to the brand name drug or original biological product, or move it to a different cost-sharing tier, or both. We may make changes based on new clinical guidelines. If we remove drugs from our formulary, add prior authorization, quantity limits and/or step therapy restrictions on a drug, or move a drug to a higher cost-sharing tier we must notify affected members of the change at least **30 days** before the change becomes effective. Alternatively, when a member requests a refill of the drug, they may receive a 60-day supply of the drug and notice of the change.

If we make these other changes, you or your prescriber can ask us to make an exception for you and continue to cover the drug you have been taking. The notice we provide you will also include information on how to request an exception, and you can also find information in the section below entitled “*How do I request an exception to the Select Health Medicare formulary?*”

Changes that will not affect you if you are currently taking the drug. Generally, if you are taking a drug on our 2026 formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the 2026 coverage year except as described above. This means these drugs will remain available at the same cost sharing and with no new restrictions for those members taking them for the remainder of the coverage year. You will not get direct notice this year about changes that do not affect you. However, on January 1 of the next year, such changes would affect you, and it is important to check the formulary for the new benefit year for any changes to drugs.

The enclosed formulary is current as of 05/01/2026 . To get updated information about the drugs covered by Select Health Medicare, please contact us. Our contact information appears on the front and back cover pages. In the event of mid-year non-maintenance formulary changes throughout the plan year, Select Health may make changes via errata sheets mailed to you. Additionally, you may visit selecthealth.org/medicare for a link to the errata sheet.

How do I use the formulary?

There are two ways to find your drug within the formulary:

Medical Condition

The formulary begins on **page 1** . The drugs in this formulary are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category, Cardiovascular Drugs/Hypotensive Agents. If you know what your drug is used for, look for the category name in the list that begins on **page 1**. Then look under the category name for your drug.

Alphabetical Listing

If you are not sure what category to look under, you should look for your drug in the Index that begins on **page 123** . The Index provides an alphabetical list of all of the drugs included in this document. Both brand name drugs and generic drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the Index and find the name of your drug in the first column of the list.

What are generic drugs?

Select Health Medicare covers both brand name drugs and generic drugs. A generic drug is approved by the FDA as having the same active ingredient as the brand name drug. Generally, generic drugs work just as well as and usually cost less than brand name drugs. There are generic drug substitutes available for many brand name drugs. Generic

drugs usually can be substituted for the brand name drug at the pharmacy without needing a new prescription, depending on state laws.

What are original biological products and how are they related to biosimilars?

On the formulary, when we refer to drugs, this could mean a drug or a biological product. Biological products are drugs that are more complex than typical drugs. Since biological products are more complex than typical drugs, instead of having a generic form, they have alternatives that are called biosimilars. Generally, biosimilars work just as well as the original biological product and may cost less. There are biosimilar alternatives for some original biological products. Some biosimilars are interchangeable biosimilars and, depending on state laws, may be substituted for the original biological product at the pharmacy without needing a new prescription, just like generic drugs can be substituted for brand name drugs.

For discussion of drug types, please see the Evidence of Coverage, Chapter 5, Section 1.3, "The 'Drug List' tells which Part D drugs are covered."

Are there any restrictions on my coverage?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior Authorization:** Select Health requires you or your physician to get prior authorization for certain drugs. This means that you will need to get approval from Select Health before you fill your prescriptions. If you don't get approval, Select Health may not cover the drug.
- **Quantity Limits:** For certain drugs, Select Health limits the amount of the drug that Select Health will cover. For example, Select Health provides 60 tablets per prescription for lovastatin. This may be in addition to a standard one-month or three-month supply.
- **Step Therapy:** In some cases, Select Health requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, Select Health may not cover Drug B unless you try Drug A first. If Drug A does not work for you, Select Health will then cover Drug B.

You can find out if your drug has any additional requirements or limits by looking in the formulary that begins on **page 1**. You can also get more information about the restrictions applied to specific covered drugs by visiting our website. We have posted online documents

that explain our prior authorization and step therapy restrictions. You may also ask us to send you a copy. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You can ask Select Health to make an exception to these restrictions or limits or for a list of other, similar drugs that may treat your health condition. See the section, “How do I request an exception to the Select Health Medicare formulary?” on **page ix** for information about how to request an exception.

What are over-the-counter (OTC) drugs?

OTC drugs are non-prescription drugs not normally covered by a Medicare Prescription Drug Plan. Select Health pays for certain OTC drugs through your Select Health Medicare Benefits Mastercard® Prepaid Card (Flex Card). Please see your *Evidence of Coverage* for additional details on your OTC drug coverage. The cost to Select Health of these OTC drugs will not count towards your total Part D drug costs.

What if my drug is not on the formulary?

If your drug is not included in this formulary (list of covered drugs), you should first contact Member Services and ask if your drug is covered.

If you learn that Select Health Medicare does not cover your drug, you have two options:

- You can ask Member Services for a list of similar drugs that are covered by Select Health Medicare. When you receive the list, show it to your doctor and ask them to prescribe a similar drug that is covered by Select Health Medicare.
- You can ask Select Health to make an exception and cover your drug. See below for information about how to request an exception.

How do I request an exception to the Select Health Medicare formulary?

You can ask Select Health to make an exception to our coverage rules. There are several types of exceptions that you can ask us to make.

- You can ask us to cover a drug even if it is not on our formulary. If approved, this drug will be covered at a pre-determined cost-sharing level, and you would not be able to ask us to provide the drug at a lower cost-sharing level.
- You can ask us to waive a coverage restriction including prior authorization, step therapy, or a quantity limit on your drug. For example, for certain drugs, Select Health

limits the amount of the drug that we will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover a greater amount.

Generally, Select Health will only approve your request for an exception if the alternative drugs included on the plan's formulary, the lower cost-sharing drug or applying the restriction would not be as effective for you and/or would cause you to have adverse effects.

You or your prescriber should contact us to ask for a tiering or formulary exception, including an exception to a coverage restriction. **When you request an exception, your prescriber will need to explain the medical reasons why you need the exception.** Generally, we must make our decision within **72 hours** of getting your prescriber's supporting statement. You can ask for an expedited (fast) decision if you believe, and we agree, that your health could be seriously harmed by waiting up to **72 hours** for a decision. If we agree, or if your prescriber asks for a fast decision, we must give you a decision no later than **24 hours** after we get your prescriber's supporting statement.

What can I do if my drug is not on the formulary or has a restriction?

As a new or continuing member in our plan you may be taking drugs that are not on our formulary. Or you may be taking a drug that is on our formulary but has a coverage restriction, such as prior authorization. You should talk to your prescriber about requesting a coverage decision to show that you meet the criteria for approval, switching to an alternative drug that we cover, or requesting a formulary exception so that we will cover the drug you take. While you and your doctor determine the right course of action for you, we may cover your drug in certain cases during the first **90 days** you are a member of our plan.

For each of your drugs that is not on our formulary or has a coverage restriction, we will cover a temporary **30-day** supply. If your prescription is written for fewer days, we'll allow refills to provide up to a maximum **30-day** supply of medication. If coverage is not approved, after your first **30-day** supply, we will not pay for these drugs, even if you have been a member of the plan less than **90-days**.

If you are a resident of a long-term care facility and you need a drug that is not on our formulary or if your ability to get your drugs is limited, but you are past the first 90 days of membership in our plan, we will cover a **31-day** emergency supply of that drug while you pursue a formulary exception.

If you experience a change in your level of care, such as a move from a hospital to a home setting, and you need a drug that is not on our formulary or if your ability to get your drugs is limited, we will cover a one-time temporary supply for up to **30 days** (or 31 days if you are a long-term care resident) when you use a network pharmacy. During this period, you should

use the plan's exception process if you wish to have continued coverage of the drug after the temporary supply is finished.

For more information

For more detailed information about your Select Health Medicare prescription drug coverage, please review your *Evidence of Coverage* and other plan materials.

If you have questions about Select Health, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

If you have general questions about Medicare prescription drug coverage, please call Medicare at **1-800-MEDICARE** (1-800-633-4227) 24 hours a day/7 days a week. TTY users should call **1-877-486-2048**. Or, visit **www.medicare.gov**.

Select Health Medicare formulary

The formulary that begins on **page 1** provides coverage information about the drugs covered by Select Health Medicare. If you have trouble finding your drug in the list, turn to the Index that begins on **page 123**.

The first column of the chart lists the drug name. Brand name drugs are capitalized (e.g., ADVAIR) and generic drugs are listed in lower-case italics (e.g., *simvastatin*).

The second column of the chart lists the Drug Tier. The Drug Tier column lets you know the type of copayment or coinsurance you will be responsible for at the pharmacy.

The information in the **Requirements/Limits** column tells you if Select Health has any special requirements for coverage of your drug.

- PA** – We require you or your physician to get prior authorization for certain drugs before you fill your prescriptions.
- QL** – We limit the amount of the drug covered in a specific time period.
- ST** – We require you to first try certain drugs to treat your medical condition before we will cover another drug for that condition.
- LA** – This drug requires special handling or has special dispensing requirements. This prescription may be available only at certain pharmacies. For more information, consult your *Provider and Pharmacy Directory* or call Member Services toll-free at **855-442-9900**. TTY users should call **711**.
- NM** – This drug is not available through our mail order pharmacy.
- HI** – This prescription drug is covered under our medical benefit. For more information, call Member Services at **855-442-9900**, Weekdays 7:00 a.m. to 8:00 p.m., Saturday and Sunday 8:00 a.m. to 8:00 p.m. TTY users should call **711**.
- BvsD** – This drug may be covered under the Part B or Part D Medicare benefit.

Please refer to your *Evidence of Coverage* for more information regarding how much you will pay for your prescription drugs. The tables below tell you the annual deductible and copayment/coinsurance amount for drugs in each tier by service area/plan name.

DRUG NAME	TIER	REQUIREMENTS/LIMITS
-----------	------	---------------------

SMOOTH MUSCLE RELAXANTS

GENITOURINARY SMOOTH MUSCLE RELAXANTS

<i>darifenacin hydrobromide er (er 7.5 mg tab er, er 15 mg tab er)</i>	3	QL (30 PER 30 DAYS)
<i>fesoterodine fumarate er (er 4 mg tab er, er 8 mg tab er)</i>	4	QL (30 PER 30 DAYS)
<i>flavoxate hcl 100 mg tab</i>	2	
MYRBETRIQ (25 MG TAB ER 24H, 50 MG TAB ER 24H)	3	QL (30 PER 30 DAYS)
MYRBETRIQ 8 MG/ML SRER	3	QL (300 PER 30 DAYS)
<i>oxybutynin chloride 5 mg tab</i>	1	QL (120 PER 30 DAYS)
<i>oxybutynin chloride 5 mg/5ml solution</i>	2	QL (473 PER 23 DAYS)
<i>oxybutynin chloride er (er 5 mg tab er, er 10 mg tab er, er 15 mg tab er)</i>	1	QL (60 PER 30 DAYS)
<i>solifenacin succinate (5 mg tab, 10 mg tab)</i>	2	QL (30 PER 30 DAYS)
<i>tolterodine tartrate (1 mg tab, 2 mg tab)</i>	2	QL (60 PER 30 DAYS)
<i>tolterodine tartrate er (er 2 mg cap er, er 4 mg cap er)</i>	3	QL (30 PER 30 DAYS)
<i>tropium chloride 20 mg tab</i>	2	QL (60 PER 30 DAYS)
<i>tropium chloride er 60 mg cap 24h</i>	3	QL (30 PER 30 DAYS)

RESPIRATORY SMOOTH MUSCLE RELAXANTS

<i>roflumilast (250 mcg tab, 500 mcg tab)</i>	3	QL (30 PER 30 DAYS)
<i>theophylline er (theophylline er 400 mg tab er 24h, theophylline er 600 mg tab er 24h, theophylline er 100 mg tab er 12h, theophylline er 300 mg tab er 12h, theophylline er 200 mg tab er 12h)</i>	3
